

Internal Seminar

Scientific HPC Applications Benchmarking and Software Development Tools

Tricia Balle

Cray Inc., New Zealand

Cray is very often able to provide superior performance on any given benchmark. The talk will outline the software development tools available for performance optimization and improving scalability. These tools help to close the gap between observed performance and achievable performance. Speaker shall also take you through some real cases.

Wednesday, Aug 10th 2016

3:00 PM (Tea/Coffee at 2:45 PM)

Class Room 2 (3rd Floor), TCIS
