

Sawaal-Jawaab

Conversations on Science

Flocks, herds, swarms

The physics of moving in groups

How do fish school? Birds flock? Bees swarm? And why is a physicist worrying about this? Come join a conversation on the physics of collective motion of living things.

Discussion leader: Professor Sriram Ramaswamy, a renowned theoretical physicist, and a leader in the study of self-propelled organisms. He is currently Director of TCIS, Hyderabad.

This Sawaal-Jawaab is the first of a series of conversations about current issues in science. The discussion will be initiated and led by a prominent scientist. Open to all ages and backgrounds. Come with your curiosity and questions.
