

Colloquium

Lattice Supersymmetry

Noboru Kawamoto

Hokkaido University, Japan

This theme of subject of high energy particle theory is rather specific. I will therefore explain, why lattice?, what is supersymmetry? and why lattice supersymmetry? In particular I will explain the long standing aim of my point of view on this subject. I will then briefly explain how we came to solve the notorious lattice supersymmetry difficulties in an understandable way for non-experts.

Wednesday, Feb 7th 2018

04:00 PM (Tea/Coffee at 03:30 PM)

Auditorium, TIFR-H
