Synthesis and Applications of Inorganic-Organic Hybrid Frameworks based on Polycarboxylate and Organo-Phosphorus Ligands

Souvik Pal

IIT(ISM), Dhanbad

The seminar entitled “Synthesis and Applications of Inorganic-Organic Hybrid Frameworks based on Polycarboxylate and Organo-Phosphorus Ligands” presents the design and synthesis of various inorganic-organic hybrids such as metal-organic frameworks, hydrogen bonded frameworks and coordination polymers for gas adsorption, energy storage, catalysis and biology.

Wednesday, Mar 21st 2018

9:30 AM (Tea/Coffee at 9:00 AM)

Seminar Hall, TIFR-H
