Protecting civilians against nuclear attacks: feasible or not?

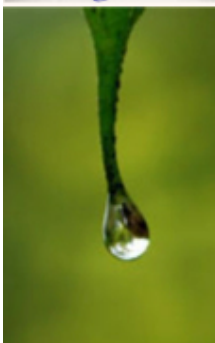

As a relative newcomer to the nuclear club, India has adopted measures to protect civilians against nuclear attack. How effective might these be? The discussion will focus on how to assess both this risk and its management.

Discussion leader: Prof. R. Rajaraman, distinguished theoretical physicist and Emeritus Professor at JNU, New Delhi. He has written extensively on issues related to nuclear energy and disarmament.

Sawaal-Jawaab is a conversation series on current issues in science. The discussion is initiated and led by a prominent scientist. Open to all ages and backgrounds. Come with your curiosity and questions.
