

## **Colloquium**

### **The Way to NMR Applications in Biology and Medicine**

**Kurt Wüthrich**

**The Scripps Research Institute, La Jolla, CA  
ETH Zürich, Switzerland**

NMR (nuclear magnetic resonance) presents a nice illustration of the important role of fundamental research for improved quality of human life. Considering what is expected today from applications of NMR in medical diagnosis, and in biological and biomedical research, the roots in basic research will be explored which enabled these present-day applications.

***Thursday, Feb 9<sup>th</sup> 2017***

***4:00 PM (Tea/Coffee at 3:45 PM)***

***Seminar Hall, TCIS***
