

Cultural Colloquium

Labhopping: fighting patriarchy with women in Indian Science

Aashima Dogra

The Life of Science.com

Labhopping is a journey that began in 2016 by 2 science journalists to unearth the Indian women in science who were missing from media reports, conferences, leadership and the public imagination. Aashima and Nandita travelled across the country to find stories of success and struggle of Indian women in science. These stories find a home on the project thelifeofscience.com that has now grown into a collective that is creating and publishing feminist science media. It has become the voice of Indian women in science.

About the Speaker:

Aashima is a science communicator with 10 years experience in writing and editing science based content/reportage that has appeared on thewire.in, firstpost.com, EPW, The Hindu, Pratham Books, Deccan Chronicle, Brainwave Magazine among others. With her friend Nandita Jayaraj she started the feminist science media collective thelifeofscience.com. The duos new children's book titled 31 Fantastic Adventures in Science released this month.

Monday, Sep 23rd 2019

4:00 PM (Tea/Coffee at 3:30 PM)

Auditorium, TIFR-H
