

Seminar

Global Career Pathways in Life Sciences: Navigating Academia and Industry

Gaurav Pathria

KarrierPATH, Austria

This interactive seminar will provide an overview of career pathways available to life science trainees across academia and the biomedical industry, particularly in the United States and Europe. The discussion will explore how PhD and postdoctoral choices influence long-term career trajectories, including transitions into biotech, pharmaceutical R&D, translational science, and related roles. The session will also address practical considerations such as the realities of the global job market, mobility across research systems, and strategic decision-making at early career stages. The format will be discussion-oriented, with significant time for questions and open dialogue with students and researchers.

Thursday, Mar 26th 2026

11:30 Hrs (Tea / Coffee 11:15 Hrs)

Auditorium, TIFRH
